REASONS FOR ALLOWANCE

1. The following is an examiner's statement of reasons for allowance:

Applicant's amendments and arguments have been found to be persuasive. The rejections based on 112, 1st and 2nd have been withdrawn. The double patenting rejection has also been withdrawn. While there are prior art teaching dampers with decoupling assemblies and adjustable rods, none of the prior art teaches or suggests the claimed feature of the lower membrane cage fixedly mounted and axially movable with the shifting rod as claimed in claim 1.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

2. The drawings received 6/8/07 are not approved. Elements 13 and 52b point to the wrong parts. Please correct.

3. It is noticed that the abstract of the disclosure contains legal terms "said" and "means". Correction is required. See MPEP § 608.01(b).
